Piedmont, Ala., May 18, 1887.

TESTIMONIAL.

Pledmont, Ala., May 18, 1887.

My brother, B. F. Savage, of Leadiga, Ala., has been afflicted with scrofulia, of the worst form, all his life, but abo to work till about five years ago; the disease then broke out in great; then sores, all over his body, fuside his mouth and on his tongue, so that he couldn't go out of his room, nor talk. He wastreated by all the doctors of this section of country for two years, and also by Dr. W. F. Westmoreland, of Atlanta, which only heid the disease in check, without any prospects of cure, and so pronounced by the doctors. In this condition he lay in his room for three more years. So offensive was the stench you could not sit in the room, especially in warm weather, and it was docided by doctors and all that saw him that it was only a matter of time when the disease would eat him up.

In August, 1886, I heard that Dr. Baker's Blood and I-lver Cure had cured one of my neighbors, Mr. J. D. Braswell, of a bad case. I at once procured some of the medicine and gave it to my brother. About the first of November, 1886, all sores disappeared; and, although I used every means to make it break out again, I failed. My brother, by degrees, got able to work some, and he continued to improve in health and strength, until to-day he is stouter and in better health than ever before in his life. No sign of the disease has reappeared for oversix months. I am perfectly satisfied that he ispermanently cured. And I would recommend all persons afflicted with scrofula or fike diseases to give Dr. Baker's B od and Liver Cure a trial, feeling sure it will cure any case. It is no humbug, It is a purely vegetable preparation.

I have said this much, and could say mor, for this mediciae, and without any solicita-

THEY KILLED THE NEGRO,

Buggy.

BRUNSWICK, Ga., June 30.-Lynched after confessing a crime! That was the fate of Johnson Green, a negro at Waynesville, 30 miles from Brunswick. Johnson Green murdered an English peddler named L. C. Jordan last December, and threw his body into a well near Waynesville. He was captured and put in jail, but escaped before his trial.

Friday Mr. J. B. Powell of Waynesville, learned that Green was near Savannah, and securing the assistance of vannah, and securing the assistance of W. T. Odum, a friend, he started on a search for him. He was successful, and locating Green in a house he entered both were instantly killed. locating Green in a house, be entered; covered him with a rifle and commanded him to throw up his hands. Green raised his hands and was securely bound. The party then returned to Savannah and afterwards left for Waynesville. There they did an unusual thing, according to William Wiggins's statement.

cording to William Wiggins's statement. Wiggins is a justice of the peace, but says they ignored his presence at Waynes-ville and carried their prisoner three miles out, where Judge J. F. King was secured, and a preliminary trial was held. The negro confessed his crime and was bound over. Judge King evidently expected Green would be lynched, as he is quoted as cautioning the guards to take every precaution with the prisoner and lodge him safely in Jesup jail. The court adjourned and a few spectators accompanied the guards one way, while Judge King drove off in another direction.

another direction.

Judge King was only 300 yards off when he heard rapid firing, and exchianing, "My God, they have killed the negro." he fell fainting from the buggy.

News of the lynching flew all over the country, and by morning Waynesville swarned with armed negroes. Shotgans, rifles and pistols were in the hands of every negro, and the whites Shotgans, rifles and pistols were in the hands of every negro, and the whites began preparing for a war. A few cool whites aided by some conservative negroes, succeeded in quieting the storm; but the negroes swear vengeance unless justice is meted out to Powell, Odum and a few others they accuse of doing the work. The negroes cannot find Green's body, but are scouring the country in search of it. They say that they will find the body, hold an inquest and present all the facts to Circuit Judge Spencer R. Atkinson, and demand

A TALE OF WOE.

The Story of a Young Irishman Just

CHICAGO, June 30. - One would search in vain through Hugo's "Les Miserables! for a more harrowing tale than that told by a young Irishman named Francis Yourell, who has, he says, just escaped from the clutches of an immigration agency in Brazil.

Four months ago Yourell was working as laborer on a farm near Dublin. Attracted by promises posted around the neighborhood in which he lived, he decided to take a ship for Brazil. Showy posters promised passage and three farms, and Yourell and thirteen companions jumped at what they regarded us the opportunity of their lives.

The fourteen Irishmen started from Liverpool on March 11 on the steamship Arcania. The ship touched at two obscure French ports, where 100 more passengers were taken on, and at Lisbon where 400 Portuguese were brought on board, making 1,300 passengers all told. After twenty-four days' sail from Liverpool the Arcania arrived at an out-

of-the-way seaport in Brazil. From the time the passengers landed on Brazilian ground, they were subjected to treatment, according to Yourell' statement, which no Christians ever suf fered before. They were thrown into dens where Russians and Italians were dying with yellow fever; beaten with bludgeons and starved to death almost and yet some of the unfortunate creatures

were cast into prison for complaining.

The promises about free farms were found to be a sham and humbug, the

After weeks of hardship and privation, Yourell and three others escaped from Santos on the ship Bancroy, bound for Santiago. From Santiago, Yourell sailed to Baltimore on the Bancroy as fireman. A consint of Yourell named fireman. A cousin of Yourell named William Williams lives in this city, and to him Yourell came a few days ago. Yourell is about 28 years old and bright s he is stalwart.

A DOG SUICIDES.

Successful Ending After Several De-

REV. JOHN A. JAYNES.

Noted Pastor, About to Leave the Pulpit for the Stage. CINCINNATI, June 30.—Considerable of sensation has been caused among members of the Christian denomination in this city and Northern Kentucky by the announcement that Rev. John A. Jaynes has decided to leave the pulpit for the stage. Jaynes has been regarded

as one of the coming orators of his de-nomination. He has been pastor of the rich Christian Church at Faimouth, Ky., for a year, and was expected soon to become a Cinciunati pastor. He is widely known throughout northern Kentucky and continually in demand for lectures and to dedicate churches. Jaynes, it appears, has been preparing for this step for some time. It is said that some years ago he was a member of the pro-fession. He is a fine elocutionist, has a commanding figure and will play heroic arts. He is about, it is said, to marry

a young lady of great wealth and a blood member of the Clay family. He Must Get Out.

Toccoa, Ga., June 30 .- About two and a half miles from this place has been living a negro named Sam Hamiltions making himself offensive and obwomen and children by fearful curses and vile language, threatening to kill them. The school children were afraid them. The school caldren were arraid to go by his house on their way to and from school. The ther day, with oaths and curses, he threatened to shoot and kill two young ladies who ran for their lives. This arcused the people. They could stand it no longer, and a large number surrounded his cabin, fired

guns, threw rocks against the house on all sides, and finally told him they would

give him twenty-four hours to leave the neighborhood never to return.

OPINIONS OF A POLITICIAN.

Michigan Democrats for Cleveland-Republicans for Blaine.

New York, June 29. - William B. Moran of Detroit, who was a candidate. three years ago for lieutenant governor of Michigan on the Democratic ticket, and who is counted one of the safe ad- interview with the chief magistrate visers of Don M. Dickinson and other leaders of the party there, said very emphatically that ex-President Cleveland president says: "My journey was of election. "There is no doubt that the ex-president is their choice," he said.

There has has as yet been no way of testing this question, but if there are any other favorites nothing has been heard

of them." Pacific country therefore was a source of daily surprises, and I experienced a of Michigan were warm in their enthu- keen sense of enjoyment and gratificasiasm for Blaine, and there was an impression in his state that the friends of Alger and Blaine had come to an understanding with each other. If it were found when the convention came that Blaine was not really in the race the Blaine men would quickly become Alger men. Meantime, while the question of Blaine's candidacy was pending. Alger's particularly enthusiastic friends would not push his claims. An attempt was making, Mr. Moran said, by prominent Republi-cans headed by ex-Congressman Outchson, to unlift the recent act of the legislature which provides for the election of presidential electors by congressional districts. They had advanced the claim that it was prescribed and the claim

hat it was unconstitutional. ELOPED IN A BALLOON.

Young Aeronaut Carries a Pretty Girl with Him to the Skies.

St. Louis, June 29.-A singular story was developed here by the application. at the city hall, of Mrs. J. T. Goodrich. of Pittsfield, Mass., for help to recover her 16-year-old daughter Clara, who had that was unpleasant or annoying during eloned in a ballon from Pittsfield on decoration day with an aeronaut named Walter Cooper. The girl became acquainted with Cooper—a smooth talking. handsome young aeronaut. He called upon the girl at her house, but her father and mother did not like the fellow and finally forbade her to receive attention from him. Then she began to meet him in secret. There was evidently a vein of sensationalism in the young people. because when they determined to clope, the commonplace methods which have peen in vogue for centuries would not do. On decoration day young Cooper was to give a balloon ascension at the fair grounds in Pittsfield. Dressing herself in a suit of her brother's clothes, Clara eluded her parents and stealthily made her way to Pittsfield. Her father pur-sued and reached the fair grounds just in time to see his daughter being borne in the air in the balloon with the young aeronaut. Mrs. Goodrich has been pur-suing the couple ever since, and swears to kill her daughter's betraver on sight.

They have succeeded in arresting Edward Evilsizer, aged 15, Charles Pence, 13, and Charles Steinbarger, 15, as the guilty parties. Young Evilsizer confessed after his arrest and stated that three attempts had been made to wreck the night express train. After piling he obstruction on the track they hid in he woods near by to see the train run nto it. Fortunately no damage was done. The boys were arraigned before Mayor Ganson and entered a plea of guilty. They will probably be sent to guilty. They wi the reform farm.

She Gave Him a Thrashing. WATERBURY, Conn., June 29 .- James Finnerty, one of the witnesses in the Camp divorce case, was horse-whipped by Mrs. Laura Pearsall. Finnerty at | well. the trial gave sensational testimony about the actions of E tward Camp, tho defendant in the case, and Mrs. Pearsall. She said she would horse-whip him, and when she met him on the street she produced a whip and gave him a sound thrashing. He will have her arrested.

PRESIDENT HARRISON

Interviewed on His Great Souther Western Tour. NEW YORK, June 29.-An issue The World contains all the speeches. livered by President Harrison on his re cent southern and western trip, and an

touching upon his tour.

In the course of the interview the was the choice of the Democrats in course an important event in my life. Michigan for the presidency in the next As a working lawyer whose face has been so to speak held closely to the grindstone of active practice, I have not had? the time I would have liked to spend in travel. My visit to the south and to the tion from the beginning to the end. The mountain regions of the Carolinas, of Tennessee and of Georgia, with the new industrial communities which have sprung into existence, cannot fail to interest the visitor from other sections of the country. The importance of the manufacturing towns should not be underestimated. They afford a vision of the great south that is to come—a south of increased industry, prosperity and material wealth. Places like Chattanooga and Birmingham will become greater and greater as time passes, and there are those alive today who may behold another Pittsburg in either of them.

"The reception I received was a tribute of respect to the presidential office and of hospitality and courtesy toward the individual. I can say, without reservation, that from first to last I was reeived with kindness by everybody. As strain my memory and review everyhing, there was nothing that occurred my tour in that portion of the country that is politically opposed to me. I recall on several occasions that small

call on several occasions that small street boys ran out beside the carriage and shouted, 'How are you, Ben?' with knowing looks on their eager, childish faces, I refer to this to illustrate how observant I tried to be.

"When I decided to go south I resolved to speak just as freely as I would in Indiana. I did not propose to enter into controversy or discussions, but if in the course of remarks made to me in the course of remarks made to me in public I saw anything that I thought it. was my duty to answer, I would do so

without hesitation.
"Permit me to say that the regard for the national emblem—the flag of: a common country—which I everywhere beheld, was very agreeable. The men of the south realize today as they never did before that we have in the United States a great and powerful nation of which they are proud. It is no longer, as formerly, 'I am a Carolinain.' I am a Georgian,' or 'I am an a clitzen of the United and their native state a whit the less, for the love of the commonwealth remains fixed in the southern mind, as we all know. The changes are a step in the universal progress, which

Americans, are experiencing, and I was dency.

The old time southerner generally led rode about, viewed his possessions, and, being thrown largely upon his own resources, thought much: his mental vision sought not to cross the boundary

sion sought not to cross the boundary of his states. Now this southern man is inclined to look beyond, and beholding the grandeur of the collected states is influenced thereby. All of which argues well for the future.

"Nearly all the states I visited approached nearer and nearer to Taxas I became more improspers. became more impressed by the opportu-nities which are enjoyed and are becoming appreciated by the people. The agricultural riches of the upper portion of the lone star state, and the commercial future of the lighter soiled regions near the coast were carefully noted. With a rapidly increasing population and growing understanding of the possibilities that time will realize, I see unlimited

prosperity for them.
"Within her borders I was received with warm hospitality by the Texans, and my trip down through the midland to Galveston was characterized by a general welcome from all. At Houston I was received by a committee from Galveston, and was somewhat prepared by them for the flattering demonstrations of my reception. My remarks upon reciprocity and on the development of the trade of Galveston which ought to follow-among other things-the much needed harbor, improvements, were the uttered some strong words concerning the need of improvement of waterways for Galveston, which subsequent reflection has intensified

I held interesting conversations with many prominent citizens, one for instance with Governor Hogg, whom I found to be a progressive and enlightened man. I have seen the seen the governor since and how we may be seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since and how we have the seen the governor since a seen the ernor since and he gave me information which will I think result well for the repressing lawlessness in certain sections will result favorably to immigration. Texas, an empire of itself, has a

great hereafter.
"California," he continued, "like Texas, was a new country to me, though I had previously visited the northern Pacific slope, the Oregon and the Puget sound districts. The characteristic exuberance of California hospitality poured on me until I felt there was no limit. In the infrequent intervals when not occupied by the attention of the people, I feasted my eyes upon the rich fruits, the gorgeous flowers and the pure air. I spoke when it was fitting that I should do so and the sense of pleasure which was engendered at the commencement of the trip remained with me through out California and continued till I returned to Washington.

"If all men were permitted to derivaas much pleasure from a tour throughout the country as myself, I think the span of human existence would bain

The president manifestly enjoys recalling the incidents of his long trip, but there is very little of the "ego" in his conversation. He looks extremely well. The speeches the president deliv-ered have evoked praise from his Republican associates, and a number of southern senators have tal t special care to call upon the preside. and express their gratification at the manner in which he discussed vexations questions in their

WONDERS WILL NEVER CEASE. Read What Capt, James II. Savage

Has to Say of Baker's Blood and Liver Cure

TESTIMONIAL. Piedmont, Ala., May 18, 1857.

My brother, R. F. Savage, of Leadige, Ala., has been affilied with scrofula, of the worst form, all his life, but able to work till about five years ago; the disease then broke out in great rotten scres, all over his body, inside his mouth and on his tongue, so that he couldn'tgo out of his room, nor talk. He was treated by all the doctors of this section of country for two years, and also by Dr. W. F. Westmoreland, of Atlanta, which only held the disease in cheek, without any prospects of cure, and so pronounced by the doctors. In this condition he lay in his room for three more years. So offensive was the stench you could not sit in the room, especially in warm weather, and it was decided by doctors and all that saw him that it was only a matter of time when the disease would eat him up. Piedmont, Ala., May 18, 1887.

by doctors and all that saw him that it was only a matter of time when the disease would eat him up.

In August, 1886, I heard that Dr. Baker's Blood and Liver Cure had cared one of my neighbors, Mr. J. D. Braswell, of a bad case. I at once procured some of the medicine and gave it to my brother. About the first of November, 1886, all sores disappeared; and, although I used every means to make it break out again. I failed. My brother, by degracs, got able to work some, and he continued to improve in health and strength, until to-day he is stouter and in better health than ever before in his life. No sign of the disease has reappeared for oversix months. I am perfectly satisfied that he is permanently cured. And I would recommend all persons afflicted with scroftlin or like diseases to give Dr. Baker's Bood and Liver Cure a trial, feeling sure it will cure any ease. It is no humbug. It is a purely vegetable preparation.

I have said this much, and could say more, for this medicine, and without any solicitation, but alone for suffering humanity that we be between the surface of the day of the disease of the suffering humanity that we be between the global.

for this meanerne, and without any solicitation, but alone for suffering humanity that may be similarly afflicted. My brother is as sound as a dollar to-day and a living testimony of the worth of Dr. Baker's Blood and Liver Cure.

The Alvena left Jeremie June 20, and there were then indications that the black republic would soon be the scene of another bloody rebellion. Jeremie is in the southern part of Hayti, where Hyppolite possessed his strongest support in wresting the presidency from Legitime. At present, however, that section of the island is bitterly opposed to Hyppolite, and there are loud mutterings against his rule. So strong is the opposition to the present president that an outbreak is apt to occur at any moment. Many of the residents are so fearful of an impending insurrection that they are leaving in all haste.

There have been no executions by Hyppolite's soldiers since the execution of six men reported some time ago.

GREENSBORO, Ga., July 7 .- John Gilpin shot and killed his brother-in-law C. J. Kilgore, on the Union Point road two miles from Greensboro. The facts indicate that the murder was a premeditated and cold blooded crime, and the neighborhood and community are ncensed at its commission. Gilpin secreted himself in some bushes by the road side, and when Kilgore drove up the road he stood in front of him and deliberately emptied two loads of buck shot into his right side, afterwards pursuing Kilgore, who jumped from the wagon, and breaking the gunstock over his head. Kilgore died in a few minutes from the effects of the wound.

WAR OVER WATER.

The Water Works Topic Is the Question of the Hour in Macon.

MACON, Ga., July 7 .- The question of the hour continues to be the water supply of Macon. A short time ago the company connected its mains with the river, and the consequence was very muddy water. After persuasion had failed, the city attorney and citizens filed suits against the company amounting to \$139,000.

Recently the board of health met, and affidavits of ten leading physicians passed an ordinance declaring the present water supply a nuisance and ordering the company to abate the same within twenty-four hours, or be summoned before the recorder and be fined \$200 for every day the nuisance is continued. The water company during the night ran pipes further out into the river, and abandoned a new spring at Waterville and have taken the position that the city, by its action, has prevented the company from furnishing protec-tion against fire. The situation is in-teresting, as both sides are in earnest and worked up over the matte.

Over the Brutal Murder of a Negro Wo man by a Railroad Negro.

Toccoa, Ga., July 7.—This unusually quiet little city is considerably stirred up over the feal murder of a colored woman by the name of Lou Mootery, by railroad negro named Berry Harris.

The prevailing opinion, from the evidence in the coroner's inquest, is that jealousy was the cause. Harris was drunk at the time he shot her, and threatened to kill her about an hour before he did, because she was arranging

another negro's cravat. He shot her with a 38-calibre pistol, the ball entering just above the right eye and lodging in the brain. There was only one witness to the killing, and after Harris shot the woman he leveled bis pistol at the witness and ran him off, and then made his escape. Several posses are out in different directions looking for him.

originating in a cottage on Hogan street adjoining Itjen's grocery store, destroyed nearly every building in the block bounded by Hogan, Ashley, Laura and Church streets. The fire spread rapidly from the cottage to a row of low wooden buildings on the south and from there to Hartridge's livery stables, all of which

were destroyed. A fresh southwest breeze then carried the fire diagonally across the block to cottages on the south side of Ashley street, most of which were consumed as were cottages on the north side of Church street and one two-story frame house owned by J. FOUR MEN CONDEMNED

RIPANY, July 6 .- "It is just possible Ust I may not execute anybody mart week." The speaker was Warden Brown of Sing Sing prison, and he was standung in the office of superintendent of prisons at the capitol. He had been asked how the preparations for the execution of the six murderers were going on, and he was answering it. "You see, he continued, "it is more than possible a stay may be asked for and granted to produce new evidence. Still, there may be some sensible judge who, after this delay, may not grant it, and in that case some of the convicted men will have to die."

Mr. Brown talked as nonchalantly as if he were going to be the best man at a wedding, instead of manager of a whole sale slaughter. In response to other queries he said everything was in readi-ness and he anticipated no hitch. He admitted that as it was only the second trial of electrocution there was still a little novelty about it, and a breek of some kind might be made, but he said the greatest care would be taken that all the apparatus was in the best of working order. The men are in the best of condition, according to the warden, and none of them have broken down. On being asked to give some information as to the time of execution and the number to be killed in one day, he said:
"I have no information to give. I shall carry out the law to its last letter, and shall give no information to the press

shall give no information to the present the that the execution took place at a certain hour."

The correspondent interviewing the warden said: "Well, you are going to have newspaper men at the execution?" "Not one," he replied calmly. Read What Capt. James H. Savage Has to Say of Baker's Blood and Liver Cure.

TESTIMONIAL. Piedmont, Ala., May 18, 1857.

My brother, B. F. Savage, of Leadiga, Ala., has been afflicted with scrofula. of the worst form, all his life, but able to work fill about five years ago; the disease then broke out in great r ten sores, all over his body, inside his mouth and on his tongue, so that he couldn't go out of his room, nor talk. He was treated by all the doctors of th's section of country for two years, and also by Dr. W. F. Westmoreland, of Atlanta, which only held the disease in check, without any prospects of cure, and so pronounced by the doctors. In this condition he lay in his point for three more years. So off-nsive was the stench you could not sit in the room, especially in warm weather, and it was decided by doctors and all that saw him that it was only a matter of time when the disease would cat him up.

In August, 1886, I heard that Dr. Baker's Blood and Liver Cure had cured one of my neighbors, Mr. J. D. Braswell, of a bad cuse, I at once procured some of the medicine and gave it to my brother. About the first of November, 1886, all sores disappeared; and, although I used every means to make it break out again, I failed, My brother, by degrees, got able to work some and he continued to improve in health and strength, until to-day he is stoucr and in better health than ever before in his life. No sign of the disease has reappeared for oversix months. I am perfectly satisfie! that he is Piedmont, Ala., May 18, 1857.

strength, until to-day he is stoach and meter health than ever before in his life. No sign of the disease has reappeared for over six months. I am perfectly satisfied that he is permanentily cured. And I would recommend all persons attitieted with scrofula or like diseases to give Dr. Baker's Boom and Liver Cure a trial, feeling sure it will cure any case. It is no humbur, It is a purely vegetable preparation.

I have said this nuch, and could say more, for this medicine, and without any solicitation, but alone for suffering humanity that may be similarly afflicted. My brother is as sound as a dollar to-day and a living testimony of the worth of Dr. Baker's Blood and Liver Cure.

TO SELECT THE SPOT

In Richmond Where Jefferson Davis' Remains Are to Be Interred. RICHMOND, July 14.-The Davis Mon-

ument association and chamber of commerce committee, consisting of General Joseph R. Anderson, Mayor J. Taylor Ellyson, General Peyton Wise, Colonel John B. Cary and Judge George L. Christian, have received the following letter from Mrs. Jefferson Davis, which accompanied a copy of an open letter sent out addressed to veterans and the people of the southern states:

Through you, I return the grateful acknowledgement of my children and myself to President J. B. Purcell and the chamber of commerce of Richmond, as well as to the state of Virginia, for the many cordial utterances they have made regarding ex-President Davis.
While he lived and strove with a powto their substantial aid, and went very far toward strengthening his soul for the conflict, unequal as it was.

In answer to your invitation, I vield my husband's moral remains to the care

my husband's moral remains to the care of Virginia, secure in the certainty that he will rest among his friends, who stood firm in defeat as they did in the dawn of the confederate states, esistence, and prefer Richmond as the place of his interment.

The question of the site fer the mausoleum and for the monument is now one of absorbing interest, and various suggestions are being made, but as Richmond has said to Mrs. Davis that she would be free to select any site she chose, nothing will be done in this matter until she is able to confer with the people. It is believed that Mrs Davis wishes the body to rest in the grounds of the Davis mansion, corner of Twelfth and Clay streets, and it is thought also that she will prefer to have the monuthat she will prefer to have the monument also in that section of the city. Considerable money has already been raised for the monument, and it is expected the south will contribute.

A MAD MAN

Fires a Pistol at the President of France Without Injury.

Paris, July 14.—There was considera ble excitement throughout Paris, caused by the report that President Cornot had been shot. This rumor proved upon investigation to be untrue, but there was a foundation for the report. The president was present at the ceremonies of the official opening of a new thoroughfare, the Avenue de la Republique, where he received an enthusiastic welcome. Suddenly a man, wild-eyed and moking insane gestures, forced his way through the crowd and pushed passed through the crowd and pushed passed the seldiers on duty about the spot where the ceremonies were taking place. This man rushed up to the carriage in which the president had driven up to the new avenue and fired a pistol at M Carnot. As he did so the man shouted:
"I'll prove that there are more Bastlies to be demolished."

President Carnot advantagly alarmed at what appeared to be a succession.

A GRAND SUCCESS.

second Annual Session of the Southern Educational Association.

LOOKOUT MOUNTAIN, Tenn., July 13. The second annual session of the southern educational association, which conened upon Lookout Mountain, was a grand success in every way. The enrollment was a very large number over 800, and among those in attendance were many of the ablest and most promnent educators in the south. Texas sent eighty-five teachers, Mississippi and Arkansas over sixty each, and from Alabama, Louisiana, Kentucky and Tennesee, the attendance was large.

The attendance from the South Atlantic states was cut down to small numpers, because the railroads in that section charged a third more than the western and southwestern roads, and the teachers refused to pay the excessive charge, and many hundreds who intended to go to Lookout remained at ome. The railroad committee reported resolution asking for a one fare rate from all roads in the south for the next session, with a two-dollar membership coupon attached to ticket.

At the meeting all the fifteen southern states were well represented, and there were attendants also from seventeen northern and western states, making thirty-two states in all represented in this session of the association. All the papers and discussions were spirited and rapers and discussions were spirited and yeary important, and great enthusia-m prevailed throughout the session. Special committees were appointed to secure a fine exhibit of southern educa-

tional work at the interstate exposition in Raleigh this fall and at Chicago next year. The executive committee was instructed to arrange for the next session of the Southern Educational association, to be held at one of the following places:
Atlanta, Birmingham, Montgomery, or
Baltimore and to prepare for an attendance of at least 3,000 persons. The session will be held during the first week

in July, 1892 The association unanimously elected the following officers for 1891-2: Hon. Solomon Palmer, East Lake, Ala., president; Colonel Engene G. Harrell, Raleigh. N. C., secretary and treasurer; Professor J. L. Watson, Memphis, Tenn.,

assistant secretary.

The entire south is thoroughly united and harmonious in their great organiza-tion for the upbuilding of all educa-tional interests in our beloved south-land, and in two or three years the meetings of the southern educational association will bring together in most delightful social intercourse and valuathe consultation, from ten to fifteen thousand of the most prominent and influential teachers of this country.

A LARGE - CAVE

Discovered by an Exploring Party in

SAN FRANCISCO, July 13.-The Examiner announces the discovery of enorgon, about twelve miles north of the California line, and about forty miles from the coast.

The Examiner's exploring party which visited the caverns reached them by way of Grant's Pass. Oregon, on the line of the Oregon and California branch of the Southern Pacific. From there the party year was 3,259: total area devoted to to-bacco, 850 acrest total product, 263,752 and then proceeded into the mountains and then proceeded into the mountains with pack trains and horses. Two openings in the cave were discovered. The openings look like small fissures

in a great limestone bluff. The limestone extends for miles and appears massive and solid outside. but is honeycombed within with cracks and crevasses which extend for miles without any apparent order or system. Many of the passages within the cave are described as of great beauty, containing in them semi-transparent stal-actics, giant, milk-white pillars, pools

and streams of pure clear water.

A creek flows from the main opening to the cave, and it was here the party entered. They spent a week in exploring the cave and found innumerable passages and chambers, and several miles from the entrance they discovered a small lake of clear water and water-fall thirty feet in height. All kinds of grotesque figures were found in the various chambers. Large numbers of flash light photographs were taken. The only sign of animal life was found short distance from the entrance, where a few bones indicated that bears had used it for a lair and carried their prey there. It was estimated that the body of the cave was 1,500 feet from the surface of the mountain and the cavern itself appeared to be fully as large as Mammoth Cave in Kentucky.

A Scheme Materialized. ATLANTA, July 13.-There has been a scheme on foot for several years in Mobile, Ala., to build a road on the eastern side of Mobile bay. This has materialized in the formation of the Chicago. Mobile and Gulf Fort Railroad company, composed mostly of Chicago parties, but having the backing of the East Tennessee. Virginia and Georgia railway. This road will extend from deep water near Port Morgan northward through Baldwin county to Bay Winette, on the Louisville and Nashville railroad, and the tracks and bridges of this road will be used in crossing the Delta and reaching Mobile. where connection with the East Tennessee system will be made. Cost will be \$2.500,000 and the distance eventy-seven miles.

BOLD SWINDLERS

That Carried On' Their Scheme to the

Bitter End. CIRCLEVILLE, U., July 13. - Two swindlers fraudulently obtained the signatures of George Brinker and John Fish-Ohio, to two promissory notes for \$250 and \$150, respectively. The swindlers operated the old false contract business. and made the rustics believe they were signing a contract with the National Copper Tube company for rodding their houses with copper wire. After their signatures had been affixed to the ostensible contract it dawned upon the third resentatives they were ber swindled, but an attempt to recover the paper they had signed was met by the swindlers with the stern reply that the could not get them. They emphasize this by exhibiting revolvers and threat ening to kill them if they mad an effort in that direction. The sharpers drove

The Industrial Development in the Of the Texas State Farmers' Alliance, on the People's Party.

ATLANTA, July 10.—The Journal of this city publishes the views of Hon. nouncement of Mills and Oates, and shows that the great organization in ple's party, Evans said:

As to my views on the action of the recent industrial union conference at Cincinnati, and the attitude of the southern Alliance toward the new people's party, I will preface what I have to say by stating that I have been with the Alliance almost from its infantry. I am a charter mem'er of No. 131, therefore I have had opportunities for the last nine years of studying closely its principles and have watched its movements,

an evident fact that the principais and demands of the Farmers' Allipais and demands of the Farmers' Alli-ance is Jeffersonian democracy, pure and simple. Hence our order has in the past, and perhaps, will in the future give the democratic party an opportu-nity to purge itself of political dema-goues and enemies of our order and people. But it is an evident fact that so long as the party is headed with such demagogues as Roger Q. Mills, of Tex-as, and Oates, of Alabama, and others, who delight in slinging mud at our order, there is but little hope of reformation in the party. And, in view of the fact that the Cincinnati convention has adopted the Ocala demands, no local allianceman, when he understands the situation, will look upon this conven-

Now the question is, will the Democratic party do as much for the people, or will it allow designing demagogues to drive the people from the party! The man who claims that there is no danger of third party movement in the south, does not know what he is talking about. The people are fearfully in earnest in their efforts to overthrow plutocracy, their efforts to overthrow plutocracy, and free themselves from the encroachments of monopoly. They are determined on having relief, and it is an evident fact that the indifference manifested on the part of the Democratic party toward the people and the refusal on the part of recognized leaders of the warty to hear the cries of our suffering

a tendency to solidify the people and causes them to look elsewhere for relief. Now if the expressions of Mills of Texas. and Oates of Alabama mean anything, it

This is being done in Texas through the Barney Gibbs scheme.

Now, if these expressions and actions mean anything, it means that the Democrotic party in the south propose to fight the Farmers' Alliance, the Kuights of Labor, the colored Farmers' Alliance and other organizations on our demands. Thence, it is no longer a party fight, but one of principles. The Farmers' Alli-ance of the south is composed of and

represents the people.

Therefore it means that the Democratic party must come back to the pure Jeffersonian principles or suffer defeat.

A Kansas Alliance Scheme. TOPEKA, July 10.—The Kansas State Alliance has consummated a scheme which will save the farmers of the state thousands of dollars. A committee of three leading alliancemen was appointed to-day to make a list of all farm mortgages and then go east and negotiate with capitalists for payment and renewals of such as can not be met when due. The object of this plan is to forever put at rest the charge by the re-publican papers that the farmers of Kansas are in favor of repudiation, and to also save them 2 per cent in interest and commission paid to middle men and agents, who have fliched from both the lender and borrower. The committee will deal with the capitalists direct, and will go east at an early date and en-deavor to correct the false impression concerning the intentions of the alli-ancemen regarding their mortgage in-

The fact that Mr. Watson is still stumping the state as vigorously as he did before the congressional election plainly indicates his purpose. He continues to get closer to the people. It is also remarked that the congressman from the tenth is closely guarded by Colonel L. F. Livingston, nd the inference is drawn that their movements are in pursuance of a closely kept agreement. ABOUT BLAINE'S CONDITION.

A Herald Reporter Says Ho Is a Sick and Dying Man.

NEW YORK, July 10 -A special to: The Herald from Bar Harbor says: It is still an open question among those who think themselves in a position to know whether James G. Blaine will-return to his duties at Washington

in the fall or whether he has come to Bar Harbor to die. There are intelligent people here who argue that this distinguished American is toiling into his grave, dragged thither by a fatal combination of nervous prostration, paralysis and Bright's disease

of the kidneys. Others, whose opinions would seem to carry equal weight, are of precisely contrary opinion and maintain with equal zeal that Mr. Blaine is suffering from nothing more serious than over-taxation of the brain and nerves during the past

In the face of such point blank contraditions, it is hard to know just what to believe. I think, however, I am safe

n making these two statements: First, that Mr. Blaine is by no means the man he was a year ago, and that the habitues of Bar Harbor are shocked at the change. Second, that Mr. Blaine is really dying, from whatever cause he is dying very gamely, and is making such a fight against the grim monster as only

a man of his iron will can make.

Read What Capt. James H. Savage Has to Say of Baker's Blood and Liver Cure.

Pledmont, Ala., May 18, 1887.

My brother, B. F. Savage, of Leadiga, Ala., has been afflicted with scrofula, of the worst form, all his life, but able to work till about five years ago; the disease then broke out in great reten sores, all over his body, inside his mouth and on his tongue, so that he couldn't go out of his room, nor talk. He was treated by all the doctors of this section of country for two years, and also by Dr. W. F. Westmoreland, of Atlanta, which only held the disease in check, without any prospects of cure, and so pronounced by the doctors. In this condition he lay in his room for three more years. So offensive was the stench you could not sit in the room, especially in warm weather, and it was decided by doctors and all that saw him that it was only a matter of time when the disease would eat him up.

In August, 1884, I heard that Dr. Baker's Blood and Liver Cure had cured one of my neighbors, Mr. J. D. Braswell, of a bad case. I at once procured some of the medicine and gave it to my brother. About the first of Novembor, 1886, all sores disappeared; and, although I used every means to make it break out again, I failed. My brother, by degrees, got able to work some, and he continued to improve in health and strength, until to-day he is stouter and in better health than ever before in his life. Nowing of the disease has reappeared for oversix months. I am perfectly satisfied that he is permanently cured. And I would recommend all persons afflicted with scrotnia or like diseases to give Dr. Baker's Bood and Liver Cure a tr'al, feeling sure it will cure any case. It is no humbug, It is a purely vegetable preparation.

I have said this much, and could say more, for this medicine, and without any solicitation, but alone for suffering humanity that may be similarly afflicted. My brother is as cound as a Gollar to-day and a living testimony of the worth of Dr. Baker's Blood and Liver Cure.

FOOD OR DEATH. A Florida Contractor Murdered by a

Hungry Man.

JACKSONVILLE, Fla., July 21.-A Branford special to The Evening Telegram says: Passengers arriving here on the Belle of Suwanee report that a cowardly murder was committed near Mundin's point, on the Gulf of Mexico. W. U. Braden, a contractor, has a camp in a forest back of the point getting out telegraph poles. Of late the camp has been short of provisions, and there has been dissatisfaction among the men on that account. The steamer should have brought down some provis-

ions on Friday, but failed to do so. A man named Higgenbothem went to Braden and told him that he had come to get rations or to kill him. Braden replied that the rations had not come. Higgenbothem then told Braden to get his gun for he was going to kill him, and fired, filling Braden's breast with buckshot. Higgenbothem impredictable buckshot. Higgenbothen immediately walked off, and has not yet been arrested. Braden died almost instantly.

A Fort Worth, Texas Bank Closes Its

FORT WORTH, July 21.-The Merchants' National bank, by a vote of its directors, closed its doors and the bank was placed in the hands of Bank i Examiner Spaulding. The assets are \$1,200,000 and liabilities \$500,000. The trouble began six months ago when rumors caused the heavy withdrawal of \$200,000 within fifteen days, of which \$85,000 was taken out by foreign loan companies on account of the alien land law. Mr. Spaulding says the bank is solvent with no occasion for a receiver and he would not have taken such a step except at the unanimous request of the directors. The depositors and creditors will be fully protected. A movement is on foot to reorganize the bank under the new law. Other banks tendered aid, but the directors concluded it best to take the course they did. No other banks are affected and did. No other banks are affected, and little excitement is exhibited over the

Cowardly Assassination.

Dominey's Mills, Ga., July 21.-Mr. A. J. Li enby, the deputy sheriff of Irwin county, was assassinated in a most cowardly manner by some unknown party. Mr. Lisenby had been attending justice court here, and was shot down as he was walking through the yard after dark, accompanied by Hon. D. A. McInnis, former representative from Irwin co nty, and another friend. The shot was fired from behind, and the rie shot was med from beamd, and the assassin escaped without being seen. The cause for the deed is unknown. Mr. Lisenby was a good citizen, and, so far as is known, had given no offense to any one which could have caused his death. the leaves a wife and several children. The authorities think they have a clue to the murderer, and that they know who did the shooting, but will say nothing as yet.

Attempted to Break Up the Meeting. Neosho, Mo., July 21.—During a religious meeting at Tiff City, McDonald county, a number of roughs attempted to break up the meeting The minister commanded them to be quiet, whereupon one of the roughs knocked him down with a club. A justice of the peace, with young Hopkins, son of post-master Hopkins, and several others, attempted to arrest the roughs. They met with resistance, c.ubs and rocks being used against the offisers. Young Hopkins then fired upon them, killing John Cooke and shooting the left hand off of one of the others.

Hopkins surrendered to the sheriff. More trouble is

Tennessee Boy Murderers.

NASHVILLE, July 21.-A Tracy City special says; There are well grounded mmors affoat that two boys who reside in Grundy, a few miles from Pelham, named Sanders and Meeks, waylaid and murdered a Sicilian peddler at Lusk's Gap, a few days ago. The man was killed by knife wounds, and the two boys were detected in the act of burying the body. The object of the murder was money, though but \$17 were secured. The details of the crime are meager, but it is understood that Sanlers has been arrested and is in jail.

A Family Burned. WHILE SEINING ly the Tennessee River Five Men Were

Drowned.

LOUISVILLE, Ky., July, 20.-While seining in the Tennessee river, near Murray, Edward Brown, Walker Strade, John Meader, Dick Eaves and John T. Brame were drowned. The party numbered eight. They tied one end of the seine to the

bank, and stretched the netting nearly straight out into the river. Stationed at intervals near the outer end the eight men, with only shoes, hats and coats off, swam with the poles toward the shore. Not one of them was well acquainted with the river, and they swam into the swift, cold current. Suddenly one was seized with cramps. A panic followed. The seine was dragg d, and Branie, Brown and Strader became entangled in it. Meader and Eaves were swept under by the current while the other it. Meader and Eaves were swept un-der by the current, while the other three succeeded in reaching the bank. All the men drowned were well known citizens near Murray. Eaves and Meader have not been found.

In Russia a grave deficit, the peas antry starving and small hope of relief. In India scrious anxiety of a famine revails over a consider, ble portion. There is a drought in Bengal, and more rain is urgent.

Bombay alone promises a good har-

The American harvest is good in quality and amount, but with the failure of the Indian and Rusian supplies it is of the utmost importance that the English

crop shall not be short.

The prospect on the whole is good.
In the chief wheat counties the crop is above the average, and other counties no to the average. The harvest will be late and prices high.

There is therefore a good outlook for

the English farmer to break the long perils os disastrous years.

FREE FROM INJURY. A Baby Picked Up Laughing After a Fall

CHICAGO, July 20.-Two-year-old Elsie Diettie dropped out of a third-story window while at play, and Alderman Haines, who was passing, rushed forward to pick up her mangled corpse from the flagstones. To his amazement the child, seated upon the smashed re-mains of a window screen on the pave-ment, was cooing with delight and attempting another flight through the air. The little tot, in pushing out of the window, had carried with her the screen, which, reaching the ground first. had broken the force of her fall. A Fight at a Barbecue.

LITTLE ROCK, July 20.—Particulars of a bloody encounter in the Creek nation has been received here. Partisans of Chief Pipieche and Wesley Smith, candidate for principal chief, came together at a barbecue near Fisher. While Smith was making a speech the followers of his opponent precipitated a fight, Guns, pistols and knives were used with terrible consequences, and four persons were fatally wounded. The opposing candidates, with united efforts, pacified the different factions, preventing further trouble.

A STORY OF WANT.

A Mother's Horrible Doings in the Great North Woods PINE CITY, Minn., July 18 .- A fishing party from this city has just returned from the great pine forests of Snake river, and brings with it a wild woman

and her 16-year-old daughter. The daughter tells a story of terrible suffering and privation. She says that the husband and father of the family was eaten by wolves while in an intoxicated condition, last March. Since that time they have had no food in their

humble cabin. The three younger children died of starvation, and were cooked and eaten, one by one, by the mother and eldest daughter. The mother's mind finally gave way, and she is now a raving maniac.

BOLD CATTLE THIEVES

Doing a Wholesale Business All Over

CHEYENNE, Wy. T., July 18.-There s more cattle stealing going on all over the state at this time than for years. In but one county can a rustler be couvicted, and they have grown very bold. In some localities thieving is quite open. Bunches of stock are driven to Montana, Utah and Nebraska, and stolen beef is marketed in nearly every town. The future of the industry is threatened. several stockinen will leave the state. In Cook county one thief has been lynched, and hanging is threatened in Weston county. One man followed a bunch of stolen horses 250 miles, and is certain that the animals were rail-roaded by a line of thieves. He recovered eleven head, finding them all along the range. Another man, after his property, was advised to turn back or

DULUTH. July 18.-At West Superior verely injured, of whom one will die. Half a dozen more were badly hurt. Assistant Chief Kellogg of the fire department, had his leg broken. Twentyfive people had sought refuge in the building from the storm. So thick was by debris that it was three hours before the last body was reached. The new store building of William Mosher, on Ohio avenue, was blown down, and its occupants barely escaped with their lives. A building on the corner of Susquehanna and Eighteenth streets and two buildings on Lackawanna street were also demolished. At West Duluth several small buildings were unroofed.

Kansas City, July 18.—Several of the richest men in Kansas City have organized for the purpose of supplying cold air throughout the city through conduits. At a meeting of the common council, a company was granted a franchise to build mains and works to carry out the proposed enterprise, the first of its kind ever attempted in this country. The projectors of the scheme are confident of its success, and will sell fresh air to any party and remove impure atmosphere at a very low cost per square The work of laying mains gin at once, and, in all probability, by next summer the company will be ready to supply fresh air in cool blasts. A CHALLENGE ISSUED And Accepted for a War of Words on

CHARLESTON, S. C., July 18. - Senator Butler has received a challenge from President Stokes, of the state Alliance of South Carelina, to meet him at Prosperity, July 29, the day of the Alliance picnic at that place, and enter into a joint discussion of the subtreasury bill.

The challenge has been accepted.

Senator Butler in generally known as strong in his opposition to the measure, but says that it is proper that the bill should be discussed freely and fully before the people, and that he is ready to meet any of its advocate in debate upon the subject.

the subject.
It is expected that the discussion will be a very lively one. It may mean that the president of the Alliance is to op-pose Senator Butler for re-election. Everybody in the Alliance circles and out is on the qui vive to see what will be the outcome of the promised joint debate between Governor Ben Tillman

and Alliance Lecturer Ben Terrell on the subtreasury bill. Terrell challenged Tillman to the discussion some weeks ago, and the governor promptly accepted. Up to a few days ago it was expected that the debate would take place in public during the working of the state of the meeting of the State Alliance, which convenes at Spartanburg on the 22d inst., but President Stokes recently gave forth a declaration that the debate must take place in secret Alliance ses-

A Double Accident. CHAUTAUQUA, N. Y., July 18. - Joseph Godfrey, of Brooklyn, N. Y., met with a double accident here. In company with Ralph Harris, of Fredonia, N. Y., he rowed out into the lake with a view of bagging some of the small game that infest the lake. Each carried a Smith & Wesson revolver. In the vicinity of Sandy Bottom the boat tipped almost over, pitching young Godfrey overboard. In the struggle that ensued it was by the hardest work that Harris was able to keep the boat in an upright position. Finally he succeeded in pulling Godfrey in, but in the excitement of the moment a 38-calibre revolver he held in his hand was discharged, the ball entering the leg of Godfrey just above the knee. The wound was dressed by Drs. Anderson and Enger, who pronounce it a very painful but not a serious injury.

Killed His Own Brother. BENNETT, Ga., July 18 .- About five miles below Washington, David Picket was cursing his father, when an older brother. Green asked him to desist, whereupon David picked up an ax and struck Greene with it, cleaving him asunder. Greene is not expected to live. He was an engineer on the Georgia railroad, and was at home on a vacation visiting his father's family.
